HOW TO PLAY

BAYANI CITY

Our own city board game. Roll the dice, walk the streets with your avatar and pet, buy famous spots and build your own corner of the city.

2-week seasons · 3 rolls per shift · the top city builder wins.
Find it in the SMB Game Portal → Games → 🏙️ Bayani City.

THE BASICS

The game in 60 seconds

Everyone starts at SIMULA on equal footing. Each shift you get a few rolls. Land on a spot, claim it, and anyone who lands there later pays you rent. The player with the biggest city at the end of the season wins.

🎲

3 rolls per shift

Rolls reset at 9 PM PHT. Use them any time during your shift.

🏠

Claim & build

Stall → Shop → Café → Office. Bigger buildings, bigger rent.

🏆

Biggest city wins

Your coins plus everything you own count toward your total.

How to play a turn

1. Open **Games** → 🏙️ **Bayani City** and tap 🎲 **Roll**. Your avatar walks around the board.
2. Landed on a **spot nobody owns**? Choose **Buy** or **Pass**.
3. Landed on **someone else's spot**? You pay them rent automatically.
4. Landed on a **special tile**? See the table on the next page.
5. Tap any tile on the board to see its details and owner.

City coins

Bayani City uses its own **city coins**, so playing never touches your SMB Token wallet. Everyone gets the same starting coins each season.

> ⏳ **No late joiners.** You join when a season starts. If you miss it, you can watch and you're in for the next one.

THE BOARD

24 tiles around the city

16 spots in 6 color sets, 2 transit stops and 6 special tiles. Board designs (Pinoy classic, North Luzon, Visayas, Mindanao, Asia, World) only change the names. The rules stay the same.

COLOR SET	SPOTS	TIER
🟫 **Brown**	2	Starter spots
🟦 **Sky**	3	Starter spots
🩷 **Pink**	2	Mid-range
🟧 **Orange**	2	Mid-range
🟥 **Red**	3	Premium
🟦 **Blue**	2	Top-tier (highest rent)

Special tiles

TILE	WHAT HAPPENS
🏁 **SIMULA**	Pass it or land on it to collect bonus coins.
🍀 **Swerte Card**	Draw a card. Client bonuses, brownouts and more. Good or bad, depende sa swerte!
☕ **Libreng Kape**	Free coffee and a few bonus coins.
🚌 **Transit stop**	Own one and collect rent. Own both and the rent goes up.
🧾 **Tax**	Pay the tax shown on the tile.
⏰ **OVERTIME**	Just visiting, unless you were sent here. Then your next roll clocks you out, or pay to clock out and roll right away.
🚨 **Go to Overtime**	Go straight to OVERTIME. Ouch.

🐾 Bonus: a happy pet walking with you sometimes finds coins along the way. 🤝 If you're broke with no spots, you get a small allowance so you're never out of the game.

GETTING RICH

Build, trade and win

Upgrading your spots

Own **every spot in a color set** and two things happen: rent on that set **doubles**, and you can start building. Each building level raises the rent.

LEVEL	RENT
Empty spot	Base rent
Full color set	Base × 2
🏪 **Stall**	Base × 3
🛍️ **Shop**	Base × 5
☕ **Café**	Base × 8
🏢 **Office**	Base × 12

Need coins? **Sell** a spot back to the bank to get some coins back.

Trading

- Offer spots and/or coins to any player. At least one spot has to move.
- Trades must be fair on both sides, so no giveaways.
- Up to **2 trades per week**. Offers expire after 24 hours.
- Only spots without buildings can be traded.

Winning tips

- **Use all your rolls every shift.** Rolls don't carry over.
- **Go for a full color set.** It doubles rent and unlocks buildings. Trade for that last missing spot.
- **Keep some coins.** Rent and taxes can sting, and selling spots sets you back.
- **Watch the City Feed and Standings** to see who's close to a set.

> The admin may adjust settings between seasons. The game page always shows the current values.
