HOW TO PLAY

PET RACE FRENZY

Enter your pet, keep it happy and cheer it across 24 hourly legs. The best-cared-for pet usually wins, not the biggest spender.

Race week: register by Tuesday · race on the Wed, Thu and Fri shifts · podium after leg 24.
Find it in the SMB Game Portal → Games → 🏁 Pet Race Frenzy.

THE BASICS

The race in 60 seconds

Your pet runs on its own every hour of the race shifts. How fast it runs depends on how well you take care of it. The pet with the most laps after leg 24 wins.

📝

Register 1 pet

Any hatched pet with health 20+.

⏱️

24 hourly legs

8 legs per shift over 3 shifts. Your pet runs every leg automatically.

🏅

Top 3 podium

The fastest pets finish on the podium.

Race week schedule

WHEN	WHAT HAPPENS
Registration	Pick your pet and tap **Register**. You can withdraw any time until registration closes (end of the Tuesday shift).
Lineup	Racers are locked in. Use this time to feed, play with and bathe your pet.
Day 1 · Wed	Legs 1–8, one every hour.
Day 2 · Thu	Legs 9–16.
Day 3 · Fri	Legs 17–24. The final leg decides the podium.

> At least **5 racers** are needed. If fewer sign up, the race is cancelled.

Who wins

Most laps after leg 24. Ties go to the pet with higher health, then to whoever registered first.

SPEED

Care beats spending

Each leg your pet runs about 1.75 laps × its health speed × a bit of luck × any boosts.

Speed health

Your pet's speed health is the **lowest** of its 🍖 Hunger, 🎾 Fun, 🫧 Clean and ⚡ Stamina meters. One neglected meter slows the whole pet down.

SPEED HEALTH	SPEED
90 – 100	**Full speed**
70 – 89	× 0.9
50 – 69	× 0.75
20 – 49	**× 0.5 and may stumble**
Below 20	**DNF (out of the race)**

Keeping your racer happy

- **Feed, Play, Bath** top up the three care meters.
- ⚡ **Stamina** drops a little every leg. Tap **Rest** to refill it (limited rests per shift).
- Check in a few times per shift. A quick top-up keeps you at full speed.

The race wallet

Boosts and dice share a **race wallet cap**, so nobody can buy the win. Care, Rest and obstacle clears **don't** count toward the cap.

EXTRAS

Boosts, dice, obstacles & clashes

🛍️ Boost Shop

One consumable per leg. It kicks in on the next leg.

- **Water**: small speed boost.
- **Kape**: boost, 12–3 AM legs only.
- **Saging**: no stumble for 1 leg.
- **Gatorade**: boost plus no stumble.
- **Shoes**: boost on every remaining leg (once per race).
- **Rocket**: big boost, but it can backfire (riskier if you're in 1st).
- **Wings**: boost on the final leg only.

🎲 Lucky Dice

One roll per shift for bonus laps. Pets near the back get better dice (Underdog), leaders get tougher ones.

🚧 Obstacles

Each race day an obstacle appears on the track (a rock, storm or web, depending on your lane). Pets that reach it stop. Tap it to smash it, or wait and it clears by itself after 2 legs.

📣 Cheers

Cheer another racer to give them a small boost next leg.

⚔️ Pet Clash

After some legs, two racers close in the standings are pulled into a best-of-3 Rock-Paper-Scissors clash. No stakes, just bragging rights.

🎒 Loot & ✨ Evolution

Pets may find loot during the race: power-ups to use or keepsakes. When your ⚡ Evolve meter hits 100, tap **EVOLVE** for a short burst of extra speed.

Winning tips

- **Care first.** Keeping every meter at 90+ matters more than any boost.
- **Save Shoes for early** and Wings for the very end.
- **Check in at the start of each shift** for obstacles, clashes and rests.
